

ANNUAL – REPORT

(2020-21)

Educational activities

In the session 2020-21, due to Covid-19 teaching/study of all classes were conducted ONLINE. For a few months in the session senior and senior secondary classes (IX - XII) were conducted OFFLINE also. During this period OFFLINE the board's practical exams were conducted successfully. During the period of time the **Pre-board exams** of class X & XII could be conducted. Internal assessment of Senior students at secondary & senior secondary levels were based on merit with emphasis on practical aspects of the subjects supplied & supplemented by library and books studies through smart classes with the precautions of SOP of Covid-19.

In general, more emphasis were given to mode of teaching learning & Class-work and Home-work. Home-work was also taken into account for review & rehearsal of the acquaintance with teacher & taught. Individual skills development by practices under the guidelines of the concerned teacher was successfully conducted.

Result of board exams-

In the session 2020-21, 84 students of Secondary and 90 students of Senior Secondary participated whose results were 85 percent and 75

percent, respectively. In addition, in this session (2020-21), Primary to Senior Secondary students participated virtually in many academic and competitions in which the school achieved pride by achieving positive results and online certificates. The examination results of other classes were cent-percent as per State Govt. SOP & guidelines of Board. Students who scored the best marks in each class were also awarded virtually whose parents were informed through online. Awards and mark-sheets were awarded to their parents on different dates after the lockdown ended.

Development work-

In this session more emphasis was laid on technical development in the school which would facilitate the imparting technical education to the students. Wi-Fi power was upgraded to make online and far-reaching education more effective in the school. Additional budget was made available for these works.

The building work of the school was also increased. An extra-large building was constructed to facilitate the co-curricular online activities of children in a successful and comprehensive manner.

Library Development Work

In the session 2019-21, 230 literatures were arranged in the Late Rana Rajiv Singh Library of the school. These books are especially good for students of classes 8 onward. In this session, 23 types of children's literature/magazines were made accessible to children up to class-5 in form

of PDF with manual books. These are mainly Suman Saurabh, Champak, Balhans, Balabharati, General Knowledge Competition, Vigyan Pragati, Nanhe Samrat (in Hindi and English versions). All these literatures provided at insertion period. Children read books according to their interests and then answer the quiz based on it to prove the reading-results of the book virtually.

Science labs

Technically new works were carried out in the virtual lab of Chemistry, Physic and Biology. New technology plants & equipment were installed virtually so that students get latest knowledge.

Skill/Activity/Innovation up gradation

In order to bring innovation in skill/activity of children, some new app & virtual materials were called for. New ideas shared by the teachers to students and as assignments students fulfilled by their ideas and views. Under FIT India, Swachhta Abhiyan, Khelo India Khilo India, Green Earth (Plantation prog.) etc. many activities related to skills were conducted virtually.
